

12/31/1986 -

I will, today, cease to use the $11\frac{1}{4} \times 17\frac{1}{2}$ " format for my journal. Beginning tomorrow, I will use an $8\frac{1}{2} \times 11$ " format. In the new format, I will paste down one per day of the Calendar blocks from the 1987 Dithday and Historical Calendar and one per day of the etymologies from the Calendar that Reg gave me at Christmas. I will use a four-part page in 1987 - the model for the page being one of the "pages for recording data" from Parade Harmonies: A Delectable Self Portrait. After having used the $11\frac{1}{4} \times 17\frac{1}{2}$ " format for so many years - and so successfully - I have, naturally, some difficulty in putting it aside, but put it aside I will because the $8\frac{1}{2} \times 11$ " format has come forward as the format that I will use as of January 1, 1987.
